OVERVIEW OF HADE PLATFORM USER SERVICES

As described in more detail below, the Services, among other things, provide in-browser (or otherwise local) software that (a) generates and stores HADE Addresses and encrypted Private Keys (defined below), and (b) Facilitates the submission of HADE transaction data to the HADE network without requiring you to access the HADE command line interface.

Account Names and Private Keys. When you create an Account and are approved to use Hade Pay or purchase HADE token, the Services generate and store a cryptographic private and public key pair that you may use to send and receive HADE Tokens via Hade Pay or from any participating third party crypto exchanges. The Private Key uniquely matches the Account Name and must be used in connection with the Account Name to authorize the transfer of HADE Tokens from that Account. You are solely responsible for maintaining the security of your Private Key and any password phrase associated with your wallet. You must keep your Account, password phrase and Private Key access information secure. Failure to do so may result in the loss of control of HADE Tokens associated with the Wallet.

No Password Retrieval. HADE Platform does not receive or store your Account password, nor the unencrypted keys and addresses. Therefore, we cannot assist you with Account password

retrieval for HADE Token or to use Hade Pay. Our Services provide you with tools to help you remember or recover your password, including by allowing you to set password hints, but the Services cannot generate a new password for your Account. You are solely responsible for remembering your Account password. If you have not safely stored a backup of any Account Names and password pairs maintained in your Account, you accept and acknowledge that any HADE Tokens you have associated with such Account will become inaccessible if you do not have your Account password.

Nothing in these Terms is intended to nor shall create any partnership, joint venture, agency, consultancy or trusteeship between you and HADE being with respect to one another independent contractors.

Once transaction details have been submitted to Hade Pay with the purchase of Hade Platform services, The Services cannot assist you to cancel or otherwise modify your transaction details. Hade Pay has no control over Hade Platform and does not have the ability to facilitate any cancellation or modification requests.

It is your responsibility to determine what, if any, taxes apply to the transactions you for which you have submitted transaction details via the Services, and it is your responsibility to report and remit the correct tax to the appropriate tax authority. You agree that HADE is not responsible for determining whether taxes apply to your HADE transactions or for collecting, reporting, withholding or remitting any taxes arising from any HADE transactions.
